DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-8, 10 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the phrase "for example" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

Claim 1 is also rendered indefinite by the phrasing "the parent substance". It is unclear what the parent substance is or is referring to in regard to the process reactants.

Claim 1 is rendered indefinite for containing both process and apparatus limitations. It is unclear as to what inventive concept is actually being claimed. According to the MPEP section 2173.05 (p) II: A single claim which claims both an apparatus and the method steps of using the apparatus is indefinite under 35 U.S.C. 112, second paragraph.

Claim 10 recites the limitation "device of claim 8" in line 1. There is insufficient antecedent basis for this limitation in the claim because claim 8 refers to a process and not a device. Claim 10 should be dependent from claim 9.

Claim Rejections - 35 USC § 101

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1-8 rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claim 1 is considered to be directed to both a process and apparatus based on the fact that it containing both process and apparatus limitation. According to the MPEP section 2173.05 (p) II: Such claims *may be rejected under 35 U.S.C. 101 based on the theory that the claim is directed to neither a “process” nor a “machine,” but rather embraces or overlaps two different statutory classes of invention set forth in 35 U.S.C. 101.

Allowable Subject Matter

5. Claim 9 is allowable.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DEBORAH D. CARR whose telephone number is (571)272-0637. The examiner can normally be reached on Monday-Friday 8:30-5:00.
